SUMMARY

I am a motivated Software Engineering student with a strong interest in web development, front-end technologies, and UI/UX design. I enjoy building responsive, user-focused applications that combine functionality with clean visual design. I am eager to learn modern frameworks and tools, collaborate with teams, and contribute to creating high-quality, impactful digital solutions.

WORK EXPERIENCE

Software Development Intern (Prime Minister's Office of Sri Lanka) **2025(july) - 2026(jan)**

- Developed parts of internal software systems while performing testing and modifications to improve functionality.

EDUCATION

BEng (Hons) in Software Engineering **2022**

- Informatics Institute of Technology affiliated with University Of Westminster

Foundation Certificate in Higher Education **2023 (JAN) - 2023 (SEP)**

- Informatics Institute of Technology

Advanced Level Exam **2022**

- Kalutara Vidyalaya

Ordinary Level Exam **2018**

- Kalutara Vidyalaya

SKILLS

Technical skills

- Web & Full-Stack Development: HTML, CSS, JavaScript, React, Laravel, Node.js, Bootstrap
- Programming Languages: Java, Python, PHP
- Mobile Development: React Native
- Database Management: MySQL, MongoDB
- UI/UX Design Tools: Figma
- Concepts: Object-Oriented Programming (OOP)

Soft skills

- Quick learner with strong adaptability to new technologies and environments
- Problem-Solving & Analytical Thinking
- Effective communication skills with proven team collaboration ability
- Responsi
- Excellent time management and organizational skills
- Project Management & Decision Making
- Attention to Detail

PROJECTS
